

**GOAT-ANTI MOUSE IgG (H+L)  
UNCONJUGATED  
AFFINITY PURIFIED**

|                          |   |
|--------------------------|---|
| Catalog Number           | HT-AM0705   |
| LOT Number               | 0101  |
| Target Species (Epitope) | Mouse IgG   |
| Host Species             | Goat  |
| Unit Size                | 0.5 mg  |
| Clonality                | Polyclonal  |
| Description              | Whole molecule of goat anti mouse IgG, affinity chromatography purified.  |
| Specificity              | The antibody reacts with the whole mouse IgG.   |
| Species Reactivity       | Reacts with mouse IgG. No cross reactivity was seen with protein G affinity purified human IgG, goat IgG and rabbit IgG. Reactivity with others species IgG has not been determined.                |
| Applications             | Recommended titration for ELISA test (HRP conjugated): 1/5.000-1/16.000.<br><b>Optimal working dilutions must be determined by end user.</b>  |
| Usage                    | Ready to use  |
| Storage/ Handling        | Shipped at 2-8 ° C. Upon delivery it must be aliquot in the desired volume and store at -20 or -80 ° C. Avoid freeze / thaw cycle.  |
| Format                   | Liquid  |
| Important Note:          | During shipment, small volumes of product will occasionally become entrapped in the seal of the product vial. We recommend gently spin down the vial to dislodge any liquid in the container's cap. |
